

The Carmel Planetarium

Presents

A Celebration of the International Year of Astronomy

Carmel High School Planetarium was selected by NASA for a National unveiling of new multi-wavelength images of the Galaxy M101. The spiral galaxy is 24 million light years from Earth. During our program we will unveil the new galaxy images to the public. Later in the presentation, the planetarium will be used to give the audience an experience into what Astronomers see when they look into telescopes, and a sense of the process of astronomical discovery. We will be giving away limited quantities of a NASA lithograph to audience members celebrating the event. This presentation is suitable for audiences of ages 4 and above. Running time: 45 minutes

Presentation Dates:

Saturday	February 28th	@ 7PM
Saturday	2 nd showing	@ 8PM

Planetarium programs cost \$4 for adults and \$2 for children and seniors. **Tickets are available in advance at the CHS Bookstore from 8AM-3PM starting Feb. 17th.** The Planetarium is located in Carmel High School. To reach the Planetarium, enter through the main entrance of the school on Main Street. -Walk past the Dale Graham auditorium and turn right. Doors will open 30 minutes before show time. *No one will be admitted after the program begins. Children 12 years and under should be accompanied by an adult.*
